Wir empfehlen immer die Verwendung eines Wasserfiltersystems (HWF01M/HWF01XL /HWS1500) und eines automatischen Ablassventils (ZG-700), um gegen Kalk und andere Substanzen vorzubeugen und so die Lebensdauer zu verlängern.

Wir empfehlen immer die Verwendung eines Wasserfiltersystems (HWF01M/HWF01XL/HWS1500) und eines automatischen Ablassventils (ZG-700), um gegen Kalk und andere Substanzen vorzubeugen und so die Lebensdauer zu verlängern.
